Education

BS Software Engineering
IBA University
2019 - 2023

Skills

Programming Languages

Javascript, Typescript, Kotlin

Frontend

ReactJS, AntD, Redux, Firebase,
Android XML

Backend

NodeJS, NestJS, ExpressJS,
Firebase, Git

Database

MongoDB, PostgreSQL, MySQL,
SQLite, Firestore, Firebase.

Cloud

Amazon Route53, SES, EC2, VPC,
S3, Lambda.

Tools

Git, Github, Bitbucket, Jira, Notion,
Postman, VSCode, IntelliJ

About Me

Motivated and enthusiastic Software Engineer having 1+ years of experience with a strong foundation in Full Stack development. Eager to apply acquired knowledge and skills to contribute to a dynamic team and make a meaningful impact in the software development industry. Ready to embark on a career in Full Stack and DevOps Engineering and contribute to the creation of innovative and scalable applications.

Work Experience

Aug 2023 - present

VentureDive

Web Developer Internee

- Built full-stack web applications using ReactJS, AntD, NestJS, PostgreSQL, Prisma, Docker, TypeScript, etc.
- Built applications using ReactJS, AntD, Firebase Authentication, Firestore Database, etc
- Implemented authentication and authorization modules for secure access to backend services.
- Worked closely with Senior Engineer to apply refactoring and enhancement on the Venture's Employee Web based System.
- Working on Venture's Test Management Web Based System.

Sep 2022 - Mar 2023

DigiLearners

Backend Developer

- Built API using NodeJS, ExpressJS, and MongoDB.
- Implemented authentication and authorization mechanisms for secure access to backend services.
- Collaborated with the frontend development team to manage backend services or API integrations.
- Prepared documentation, such as software requirement specifications, startup documents, or project reports.
- Worked closely with the development team and other stakeholders to gather requirements, provide progress updates, and coordinate tasks effectively.

Courseworks

- Object Oriented Programming
- Data Structures and Algorithms
- Web Engineering
- Enterprise Application Development
- Android Application Development
- Artificial Intelligence
- Software Requirement Engineering
- Software Architecture and Design
- Software Development
- Software Project Management
- Software Re-engineering

Certificates

- Technical Domain - **NFTP**
- NodeJS Essential Training - **LinkedIn**
- Introduction to Mobile Application Development - **Meta**
- Introduction to MongoDB - **MongoDB**
- Introduction to Relational Databases - **Datacamp**
- Foundations of Project Management - **Google**
- Excel Skills for Business: **Essentials**
- Excel Skills for Business: **Intermediate**

Honors & Awards

Ehsaas Scholarship Awardee - HEC Pakistan

Jun 2022 - Feb 2023

Elegant Websites

Project Manager

- Worked closely with a cross-functional team of 9 web developers, designers, and content creators.
- Developed and implemented project plans, defining project scope, objectives, and deliverables.
- Streamlined communication channels with clients and internal stakeholders, reducing project-related misunderstandings to enhance overall client satisfaction.
- Conducted regular project status meetings, ensuring all team members were aligned on project goals and progress, for on-time project delivery.

Mar 2022 - Jun 2023

MLSA Club

Co-Founder & Vice President

- Worked closely with a team members to plan and execute coding hackathons, workshops, and virtual events, etc.
- Hosted and Talked in a event named "**A day with Intel OneAPI**".
- Planned and Executed a Coding Hackathon "**Summer Code Hour**". Worked on creating coding challenges for a Hackathon.

Projects

Budget Tracker system for personal finance.

- Key features
 - Income, Expense, and Savings Management.
 - Tracking and Analysis
- Technologies
 - React, Redux, Antd, Nest, Typescript, Pactum, PostgreSQL, Git, etc.

Virtual School System - FYP

- Key features
 - Authentication, Admission, LMS, Attendance, Result, and Announcement Module.
 - Admin, Teacher, and Student Dashboard.
- Technologies
 - React, Next, Redux, Tailwind, Node, Express, MongoDB, Git, etc.

PI Order App - Pharma

- Key features
 - Order Management, Filtering and Searching, Data persistency and syncing, Administrative tools, etc.
 - Admin, Salesman, and Operator Dashboard.
- Technologies
 - Kotlin, XML, SQLite, Firebase Git, etc.
